

BLOC

Classic white wall tile in four sizes in both Glossy and Matte.

Non-Rectified Sizes:

4 x 16 (LABC---/416)

8 x 16 (LABC---/816)

Color and Finishes:

Glossy White LABC101G

Matte White LABC101M

Rectified Sizes:

6 x 24 (LABC---/624)

12 x 24 (LABC---/1224)

COORDINATING TRIMS : Use Tuxedo (LATO) trims.

For LABC101G use LATO1G (Glossy White)

For LABC101M use LATO1M (Matte White)

½ x 12 Pencil Bullnose LATO--/PB112

Corner Pencil Bullnose LATO--/PBSN

12" Quarter Round LATO--/A112

1" Beak LATO--/AC

INSTALLATION INFORMATION

Bloc is intended for interior walls. If installing with a cement-based adhesive, it is recommended to use flexible setting material that meets the ISO S1 standard (e.g. Servolight by Kiesel). All substrates should be properly reinforced to be sure there is no movement. Wood studs need to be dry and properly braced with a minimum depth of 3½". For mortar installations, the mortar bed has to be cured (less than 2% humidity) and has to have proper reinforcing.

The 4 x 16 and 8 x 16 sizes are unrectified. When mixing sizes and finishes, it is advisable to do the layout with actual tiles before installation. Shade variation may occur between field sizes and between field and trims due to the shape of trim pieces and nature of trim production.

Most manufacturers recommend a maximum offset of one-third (1/3) of the length of the tile on all large format tiles when setting a running bond. Please refer to ANSI requirements for setting large format tiles, ANSI A 108.2Section 4.3.8.
