

# VIBRANT

Aqua (SOVTAA)

Blu (SOVTBU)

Grey (SOVTGY)

Beige (SOVTBE)

Pewter (SOVTPR)

White (SOVTWE)

Colors are intended as a guide only and may vary from actual tile. Please check tile samples before making final selections. See reverse side for additional product information.

## Product Information

Vibrant is a porcelain wall tile available in 2 x 9. It features a gentle texture of vertical irregular bars that interact with light and create intriguing reflections. The structure of the tile is enriched by a blend of shades within each of the 6 colors, with some colors having more noticeable contrasts than others. A glossy crystalline glaze covers the surface, making it easy to grout and clean.

**Size** Non-Rectified

2 x 9 SOVT--/29

Approximate measurement: 1-3/4" x 9-3/16"

**Colors** Colors shown on the front

SOVTAA Aqua

SOVTGY Grey

SOVTBE Beige

SOVTPR Pewter

SOVTBU Blu

SOVTWE White

Due to the nature of this special material, **orders for Vibrant must be for full boxes only**. Please note that we do not accept returns in general. In the rare occurrence that we make an exception and do take a return of this product, only factory sealed full boxes can be accepted.

## Coordinating Trim

Expect variation in color and size between field and trims. There is limited shade variation on the pencil bullnose; the shading is more uniform than the field tile. It is advisable to show samples to customers so they understand what the trim looks like and decide if they find it acceptable.

1/2 x 9 Pencil Bullnose with field tile.

SOVT--/PB19 1/2 x 9 Pencil Bullnose (Jolly)

## Installation Information

Due to the style of this handcrafted look, the factory recommends using a minimum joint of 3/32".

It is important to work with the layout, blending pieces with different hues, within each carton and pulling from several cartons, to get the proper blend during installation. Due to the different production techniques and times, expect variation in size and color between field and trim. It's important to note that this tile should be treated as a handmade material, as all pieces are not uniform in size and may not be completely flat.

Please note that glossy glazes are susceptible to scratching during installation as well as use. This is especially true on darker colors. Please handle the material with care.

As long it is installed properly, and not where people are walking (where slip resistance is an issue), and as long as it is maintained with normal chemicals used for cleaning pools, this porcelain tile is suitable for swimming pools and fountains. It should be noted, however, that the glossy surface is susceptible to scratching, so people should be aware of that with their cleaning practices (avoid using abrasive brushes and aggressive chemicals).
