

# Cotto Tile

Extruded, unglazed cotto has been around for hundreds of years and is part of ceramic history. The look is classic and works well with many architectural styles.

Light Red (CTRL)

Burgundy (CTBY)

Colors are intended as a guide only and may vary from actual tile. Sizes listed are nominal. Please check samples before making final selection and to get actual dimensions for layout. See reverse side for additional product information.

## Product Information

### Size & Colors

12 x 12 Light Red      CTRL/1212  
12 x 12 Burgundy      CTBY/1212

### Trim

12 x 12 Step Nose Light Red    CTRL/SN  
12 x 12 Step Nose Burgundy    CTBY/SN

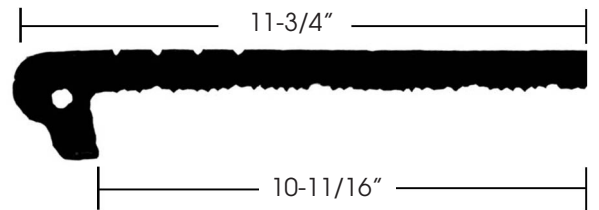

The Step Nose is slightly thicker than field tile. The Step Nose is produced in a different production and will be a different shade than the field.

12 x 12 Step Nose

11-3/4"

Step Nose Profile

Step Nose Thickness: 1/2"

### Installation Information

Due to the extruded production technique, this material has special installation requirements:

- The pieces may be slightly rectangular rather than perfectly square. During installation, they should be set with the linear grooves on the back in alignment (going in the same direction) from piece to piece.
- A minimum grout joint of 3/8" is recommended.
- Although, the material is pre-sealed by the factory, that sealant may not offer complete or lasting coverage. So it is recommended to seal it with a solvent based sealer (like Miracle 511 Impregnator) after installation.
- Expect variation between field and trims, and from production to production.
- Due to the production technique, the bottom of the tile is rough. This is especially true for the step nose.
