

glassalike

by Campogalliano

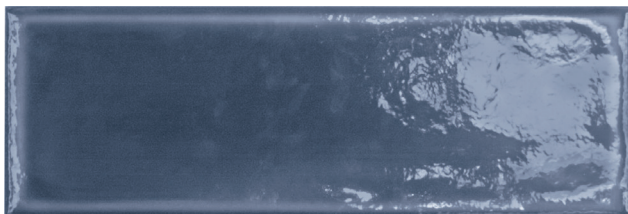

The Glassalike series is a porcelain 4x12 with a frame effect around the edges of each piece which resembles the shadow that appears around the edge of translucent glass tile. The reflective quality of the glossy finish further adds to the feeling of glass. The graphic is deceptively simple at first but (as best seen in a larger area) this tile has depth and movement created by the subtle shade variation and the undulated surface. The overall look combined with a soothing color palette evokes a deep sense of calm. The palette includes classic Bianco, a chameleon-like neutral Taupe and a deep, rich Blu. The Bianco comes in both Glossy and Matte.

Bianco Glossy (CGGEBOG/412)

Bianco Matte (CGGEBOM/412)

Blu Glossy (CGGEBUG/412)

Taupe Glossy (CGGETEG/412)

Colors are intended as a guide only and may vary from actual tile. Sizes listed are nominal. Please check samples before making final selection and to get actual dimensions for layout. See reverse side for additional product information.

Colors (Shown on the front)

Bianco Glossy	CGGEBOG	Blu Glossy	CGGEBUG
Bianco Matte	CGGEBOM	Taupe Glossy	CGGETEG

Size (Non-Rectified)

4 x 12 CGGE--/412

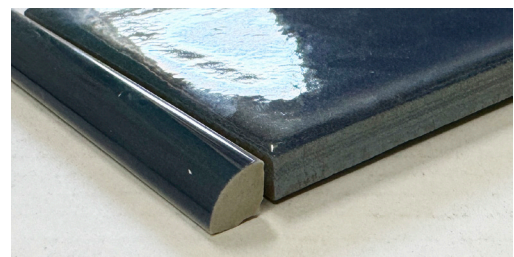

Coordinating Trim

CGGE--/PB112 1/2 x 12 Pencil Bullnose

Expect variation in color and size between field and trims. There is limited shade variation on the pencil bullnose; the shading is more uniform than the field tile.

1/2 x 12 Pencil Bullnose and Profile

Trim with field tile

Usage & Installation

Glassalike is intended for interior walls. As a porcelain, it may be suitable for some residential floors **that do not require DCOF**, but it should be noted that, as with all glossy glazes, it may be subject to scratching. This is especially true for dark glossy colors like the Blu. Care should be taken with handling and installation. It is important to work with layout, mixing pieces within each carton and pulling from several cartons, to get the proper blend during installation. Due to the different production techniques and times, expect variation in size and color between field and trim.
